New Mini Pc

The HoloWare New Mini PCs are designed for both home and office use, featuring powerful 12th Gen Intel Core i3, i5, and i7 processors. These processors offer robust performance for various tasks, with up to 12 cores and 20 threads, ensuring efficient operation for professional and personal use.

Integrated Intel UHD Graphics provide smooth visuals for everyday applications. The memory starts at 8GB DDR4 RAM, expandable up to 32GB, catering to multitasking and intensive applications. Storage options begin with a minimum of 512GB NVMe M.2 SSD, expandable up to 2TB, providing ample space for all your files and applications.

Connectivity options include Wi-Fi 6 and Bluetooth 5.2 for fast, reliable wireless connections, as well as multiple USB ports, HDMI, and Ethernet for robust connectivity. The device features an external adapter for power and a compact design with dimensions of 13.6 x 12.3 x 5.1 cm, making it highly portable.

The audio system is powered by the Realtek ALC269Q HD audio chipset, delivering high-quality sound. The Mini PCs come with built-in security features such as a discrete Trusted Platform Module, BIOS Administrator Password, and User Password Protection, along with Protegent antivirus software.

Bundled with a keyboard, mouse and monitor, the HoloWare New Mini PCs offer excellent value and versatility for users. Backed by a 3-year onsite warranty and remote support, these Mini PCs combine performance, reliability, and support, making them a perfect choice for a wide range of users.

- **Business or Office Use** : The HoloWare New Mini PCs are optimized for office environments, providing reliability, security, and multitasking capabilities. They efficiently handle business applications, virtual meetings, and extensive data processing tasks.
- **Home Office and Remote Work** : An excellent choice for remote workers and home office setups, offering the power and versatility needed to manage work tasks, online meetings, and collaborative projects seamlessly.
- **Education and E-Learnin** : Well-suited for students and educators engaged in online learning, providing the performance necessary for running educational software, conducting research, and participating in virtual classrooms.
- **General Home Use** : Ideal for everyday home use, such as web browsing, media consumption, and handling personal documents, offering reliable performance and connectivity features.
- **Small Business Solutions** : Perfect for small businesses requiring reliable, space-saving, and energy-efficient PCs for tasks such as point-of-sale systems, inventory management, and customer service operations.

New Mini PC Specifications
